To whom it may concern,

I write with concern to the boundary review at Surrey County Council being conducted by the Commission and in support of the proposals for changes to the division boundaries in Guildford.

~~With respect to the proposed Guildford East boundary, I am supportive of the inclusion of~~
Abbotswood and Boxgrove Avenue into the division, which allows for the full Burpham ward to be included in the division.

With respect to the proposed Guildford North division, the inclusion of Jacobs Well is appropriate and reflects the geography of the area better than existing arrangements. It also allows for a less extensive Worplesdon division.

The retention of Shere and Horsleys division under the current boundary is also to be supported.

I believe that the new boundaries as proposed reflect local communities appropriately. The retention of the existing boundary names allows for clear understanding of divisions by residents.

Yours sincerely,
