## Comment text:

**Related subject:** oxshott

i strongly disagree to oshott being split into 2 districts. it appears that oxshott will be carved up, with the boundary going straight down the middle of the village. this makes no sense! why not amend the proposed boundary so that all of oxshott is one borough and can remain a village in its own right. we have a great community, with annual events and local shops all supported by local residents. we have lived here for 20 year and have witnessed that new residents are welcomed into an oxshott "family". Splitting the village into 2 (and i understand removing its name) will irrevocably damage this community who have such great support for each other. removing the oxshott name will eradicate its long standing history and in a world where increasingly people are being asked to help their neighbours and people in their community, choosing to split an already established group of people who have a common goal of looking after their neighbours and supporting local facilities is non sensical.
