**Related subject:** Elmbridge

It depends exactly what the purpose of this is. If it's purely for voting purposes then maybe it won't matter too much. But from an identity point of view, Thames Ditton has no link with East Molesey, and in fact we are very split with Hampton Court Way going through most of it. To me it would make more sense to put East Molesey with West Molesey, and to put Thames Ditton with Long Ditton. Esher and Claygate go well together. Hinchley Wood could fit with either the Dittons or Esher and Claygate.

I'm not talking from an electoral size point of view at all, but purely keeping communities together.
