## Comment text:

**Related subject:** Long Ditton

I disagree with and object to this proposal to separate the Dittons. They have been linked and referred to as a unit for a thousand years. My family enjoys the resources and amenities of both Dittons and wishes the links between the Dittons to remain. Historically and culturally, Long Ditton has no relationship to Hinchley Wood and any association in a new ward such as proposed here would be artificial and flawed.

Your reports states the current divisions offer good electoral equality. Adopting proposals for other wards that create issues of access, which you propose fixing by breaking the historical ties of the Dittons is unacceptable. The Molesley Residents Association's views, adopted by the Liberal Democrats, should never be sufficient to break the historical pairing of the Dittons.
