Related subject: New boundaries for council division

I object to the proposal to redraw the council division boundaries in Oxshott. It is clearly to the disadvantage of Oxshott to separate the village, dividing it in two, due to the proposed boundary running down Leatherhead Road. Surely a more pragmatic approach could be taking by moving the boundary further to the South. Oxshott would be deprived of its separate identity, the name would disappear from ward titles and no one councillor would or could represent and fight for the rights of its residents. Oxshott would lose its voice in future issues and proposed changes would complicate access to funding, support etc for all residents, businesses, charities, schools etc This has clearly been given no thought to a well-established and highly valued community by the LGBCE
