The proposal to dismember Oxshott and give each half to different wards is ridiculous. Oxshott is very much a separate entity with its own clear community identity. It has an extremely effective umbrella organisation which consolidates the interests of Oxshott's numerous residents associations (FEDORA - The Federation of Oxshott Residents and Associations. This represents the distinct interests of the residents of Oxshott.

Oxshott also has its own major sports club (Oxshott Village Sports Club) with 9 different sports and well over 1000 members.

In summary, Oxshott has its own identity and community to a far greater extent than probably any other area in Elmbridge.
