I absolutely and unequivocally reject the LGBCE's recommendations when it comes to Oxshott! This isn't just about a community; it's about the very heartbeat of Oxshott, with over 5,000 vibrant souls, its own High Street, medical center, schools, and station. Picture this: drawing a line down a main road, tearing apart the very essence of Oxshott, obliterating its name from the LGBCE recommendations – it's simply unacceptable!

Oxshott being treated as a mere pawn, its population manipulated like chess pieces to fit some arbitrary equation of convenience for LGBCE. But let me tell you, this isn't a numbers game; it's about the soul and spirit of a community. And it's a blatant show of disrespect to the incredible people of Oxshott.

So, I stand here today, demanding that LGBCE rethinks its recommendations immediately! Let's not forget the second key consideration of "Ensuring that the recommendations reflect community identity." The only real solution here is to maintain those existing boundaries, keeping Oxshott firmly planted in the Hinchley Wood, Claygate & Oxshott division. Anything less would be an affront to the very essence of our vibrant community!
