Comment text:

Dear Commissioners,

I am writing to express my dismay at the proposal to remove Jacobs Well from the Worplesdon division for our vote for our County Councillor. We are an integral part of Worplesdon Parish Council and feel an affinity with the other villages in the Parish. We have been extremely well served by both our Parish Councillors, our Borough Councillors, also representing Worplesdon, and our County Councillors, past and present. All have looked after the interests of our village, maintained facilities such as the recreation area, the ponds and the children's playground, kept us informed about developments, good and bad, and been a real presence in Jacobs Well.

Why on earth would we wish to vote for a County Councillor who would be representing an entirely different area?

Not to mention the fact that the Parish Council would be left with three different County Councillors, all needing to communicate with them, and parts of Ash, who have no affinity with the Parish Council would replace Jacobs Well.
