**Related subject:** Long Ditton

The Dittons (Thames Ditton and Long Ditton) have been linked together for years, and should remain so. It is nonsensical to de-link them.

The community shares amenities and a post code (some who live near to Long Ditton have a Thames Ditton postcode, like I do). The monthly Thames Ditton farmers' market by the library is a good example of the joint community of the area. The green belt land at Stokes Field, the pubs and the doctors surgeries are other examples.

I feel that the community should stay as it is and not be split as the proposal which would also cause an unnecessary admin burden in changing boundary lines.
