**Related subject:** Jacob's Well

As a resident of Jacob's Well, I am firmly against the proposal to remove the village from our established Worplesdon community and put us into Guildford North. We share no community interests with Guildford North and there really is no reason for us to spend any time there other than to transit through. Slyfield Industrial Estate (GU1 1RU) and Stringers Common (GU4 7PR) are the real boundaries separating us from Guildford North. The village identifies with the semi-rural Worplesdon villages and not the urban areas of Bellfields and Slyfield. This change would risk our democratic representation as our rural perspectives may not be represented by a councillor representing the interest of a very different area.

I implore the commission to reconsider this proposal as it will damage the community and I cannot see any tangible benefit elsewhere to rebalance this decision (i.e adding Ash to Worplesdon instead of Shalford adds no value).
