I strongly oppose the LGBCE's recommendations regarding Oxshott. Oxshott is a vibrant community with over 5,000 residents, featuring its own High Street, medical center, schools, and a railway station, all surrounded by the Green Belt. There is no valid reason to split this community by arbitrarily dividing it along a main road or to erase the name of Oxshott from the LGBCE's recommendations.

I don't understand the benefits of the LGBCE's recommendations. The LGBCE's suggestions treat Oxshott as an isolated entity, disregarding its community identity, and simply using its population to meet numerical criteria. This approach undermines the sense of community and shows a lack of respect for the people of Oxshott.

I kindly request the LGBCE to revise its recommendations to honor the second key consideration, which is "Ensuring that the recommendations reflect community identity." In my opinion, the best way to achieve this is by retaining the current boundaries, where Oxshott remains a part of the division of Hinchley Wood, Claygate & Oxshott.
