As a voter I am perfectly happy with being in the ward that is part of Solihull MBC. I have confidence in the way my Meriden area is managed and satisfied with the facilities offered, services provided and content with my local parish facilities. I have higher confidence in Solihull officials (member for parliament and councillors and parish representatives), than I those officials in adjacent Coventry and especially more distant Birmingham. I would not be happy with change to another ward outside the Solihull electoral orbit.
