Comment text:

As a resident of Cheswick Green I am extremely concerned that our village boundary is being moved further back. It was originally Dog Kennel Lane that seperated us from Shirley now it is supposedly moving back to the fields between the village and the new housing development on Strawberry fields in Dog Kennel Lane. As a village we appear to be totally ignored on our views whenever a new development is planned. The rate things are going we will lose our boundary and at this rate we will lose our village status which is something we are quite proud of.
