## Comment text:

**Related subject:** Parish Councils

Why do we need so many parish councils - all taking precept - all struggling to fill vacancies - my own council has had a copy pasted annual report from the chair for the last two years- suggesting there is very little to report on. could the parish polling boundaries not be simplified to match the wards, even if the single parish then had to have representatives from each current parish - as constituents we'd at least save a little on the precept and possibly have more energetic councils.
