Related subject: Fulwell Ward reduction

I wish to object to the proposal to reduce the size of the Fulwell ward and move my road ([REDACTED]), along with several other connected streets to the Southwick ward.

There is a strong sense of community here in Fulwell, with residents having access to popular amenities such as Sea Road shops, cafes etc, as well as good schools, library/community hub, social club and many more.

There is no connection here with Southwick which has its own residents base with similar amenities and is over a mile away from where we live. Ward boundaries should be based around a sensible grouping of intact local communities, not on some arbitrary and meaningless measure of an 'optimum' number of voters.

I therefore disagree with the unnecessary and unwanted proposal to move the Fulwell ward boundary.
