## Comment text:

**Related subject:** Hollycarrside

Hollycarrside should stay as it is why do people need to change apart of history and what was here before them. We need better transport options, add a metro service/tram/train from Seaham to South Shields, using train lines that are already there and left to decay. People of Hollycarrside are proud off living in this area we will not be proud of being added to an area that is run down and no one cares about.
