Comment text:

The proposal to split Barnes Park between two wards is not logical. I endorse the Conservatives' proposals made on 7 December in full, but particularly the use of Ettrick Grove and Durham Road as the boundary. I am a former Chair of the Barnes Residents Association and I know that residents in this area consider themselves to live in Barnes (because their houses back onto the park) as much as they do Humbledon. I also believe that the proposals to include all of Hollycarrside in Grangetown make good sense as does the proposal to call the Central Ward 'City Centre' as a better alternative.
