Related subject: Fulwell ward reduction

I object to the reduction of the Fulwell ward and the reclassification of my road as well as other connected streets, as being in Southwick ward. There is a strong sense of community in Fulwell with its well-used, popular local amenities such as Sea Road shops, cafes etc., schools, library, community centre, Blue Bell public House, Social Club...and more. There is no shared connection with Southwick which has its own residents base, with similar amenities over a mile away from our location. Ward boundaries should be based around local communities, not some arbitrary calculation of an 'optimum' number of voters. There is no valid reason to alter the ward boundary and I wish to register my objection to these proposals.
