### Comment text:

The current Titchfield ward encompasses the whole of the Catisfield Village Association (CVA). Our association aims to preserve and improve the village environment and promote village community spirit. You can find more details on our website [www.Catisfield.com](http://www.Catisfield.com) . The village is situated on the Titchfield and Fareham West Boundaries. So it is possible that the village is split as a consequence of your review. This would have a massive negative impact on the CVA and the village. Having CVA members across two wards would make it extremely difficult to engage fully with two councillors. It would also create a misalignment of the councillors agenda as it would not be able to fully cover the needs of the village. Patrick King Chair person Catisfield Village Association
