**Organisation Name:** Culverden Residents' Association

### Comment text:

Culverden Residents' Association represents residents in both St John's and Culverden Wards. The residents of both these wards enjoy the benefits of the green space comprising St John's Park and the open land off Reynolds Lane. This green space should be shared by these wards. Our wards contain a large number of schools and, due to this, we have a much higher number of people in the wards than merely residents and this generates high traffic and pedestrian numbers. This additional burden should be recognised by maintaining the existing number of councillors.
