

Fareham Borough Council

Personal Details:

Organisation Name:

Comment text:

I wish to oppose the redrawing of boundaries for political reasons which would remove Warsash from Fareham and place it with Eastleigh and Hedge End. We have geographical boundaries of the River Hamble, the Sea and the M27 and across to the River Meon and Meon Valley. Warsash belongs in the Western wards of Fareham alongside Locks Heath and Park Gate. We are a growing and overdeveloped area already and Wellbourne if developed would be a significant new area north of the M27. Fareham looks to be a sensible administrative centre for this enlarging area. The residents of Warsash have no affiliation or historic links to Eastleigh and in fact being between Southampton and Portsmouth we need Cottage Hospital type outreach Services at Coldeast/fareham Community Hospital putting services near to patients. This particularly includes mental health services which are not conveniently sited in Havant and need a much more significant local presence having sold off the Meadows for house building. This proposal should be rejected.
