Comment text:

We live at █████ Church Road, Locks Heath, █████ Your proposal is to include this side of Church Road in Park Gate, but the other side of Church Road in Titchfield Common. We strongly object. We are very happy with the Locks Heath councillors and our property has the feel of being geographically in Locks Heath, as does the opposite side of Church Road. To change us to Park Gate and the opposite side to Titchfield Common seems illogical in the extreme. To have simply drawn a straight line along Church Road, because it happens to be a straight line totally ignores how the community works in practice. BOTH sides of Church Road have the feel and community spirit of being Locks Heath and yet under these proposals neither side of the road will be Locks Heath. It seems a very lazy way of reclassifying boundaries and we ask that some respect be shown to residents as to what they want. We DO NOT WISH to be reclassified as Park Gate. Please reconsider.
