### Comment text:

Stevenage Old Town / Pin Green / Symonds Green Wards Dear Yemi, I attended the seminar yesterday 20.12.21 as a rep of a local community. I am minister of High Street Methodist Church in the Old Town. I noted that you said Old Town ward was 28% bigger than others and needed to be smaller. And I remember you were looking for Community Identity. As a result, I have matched up the addresses that I am aware of for the people who attend the church and activities there. My conclusion is that the church (which is at the southern tip of Old Town Ward) serves mostly people at the eastern end of the Pin Green ward. Of course, there's people from lots of other wards but many live in this area. Perhaps the answer is to extend Pin Green to take the south end of Old town, as far north as Haycroft Road. See attachment. Thanks [REDACTED]
