Comment text:

I feel very strongly that Wallsend boundaries do not need to change. We have natural geographical boundaries such as the river to the south, the Wallsend Burn and fields to the east, Newcastle City Council boundary to the west and the Coast Road to the north. These factors create a very cohesive and well defined Ward. Further, our elector numbers will expand significantly if a new Bellway housing development proceeds, and that should be factored in. Please ensure Wallsend boundaries stay as they are now.
