### Comment text:

Wickford is bleed dry by Basildon and Billericay. Cheap options, poor maintenance and the ever changing long term promise of a renovation to our town centre whilst millions are spent in Billericay and Basildon is unfair. We pay towards their upkeep and renovation, whilst we rot. We need to be able to have a better say, if that means changing of increased wards or a parish, you have a duty to make it so. I feel Wickford should have increased representation to avoid the risk of simply being a commuter town and to support local services and needs. Thank you in advance for your consideration.
