### Comment text:

These proposals clearly make no logical sense: 7 wards north of the A127 road where very few 'affordable' (sic) homes will be built and no boundary changes proposed, all the rest are south and this is where most of the proposed homes are to be built in the coming years. More wards are needed south of the A127, not less. All my experience shows that proposed boundary changes generally favour a particular political party and the changes are not made to encourage more residents to partake in a democratic process.
