### Comment text:

What is going on? First there is the TW plan which will, in coming years, dump nigh on 10,000 houses on Paddock Wood and surrounding areas, with little or no thought given to the infrastructure. Much of the plan was rejected by PW Town Council and the objections ignored or over-ridden by TWBC. Now the council wants to reduce the number of councillors at a time when Paddock Wood is scheduled effectively to double in size. Much has been said by the Government about increasing the number of police officers. In PW, the council has sold off our police station and it is being replaced by houses. Why is that? Please can somebody explain what is going on! Thank you
