Comment text:

I am appalled that there is a proposal to alter the Local Government boundaries at a time when Tunbridge Wells Borough Council has proposed a massive house building programme on the area in question. I am a resident in the Paddock Wood West Ward which is to disappear and be subsumed under Capel, a neighbouring but very distant ward. With the vast numbers of houses proposed, the population will increase exponentially and our representation on the Borough Council should be increased and certainly not be reduced. Local Government is just that, it must represent the views and requirements of the local population. If these boundary proposals are enacted then a vast number of people in Paddock West will be disenfranchised.
