Hello As a resident of Stevenage Old Town for 40 years I oppose the proposal to change the Old Town boundary. The Old Town is very different to Pin Green. We have very different needs due to different type of housing. The Old Town is traditional with traditional style streets, housing, and strong community links. Pin Green is new with its pedestrian walkways, cycle paths etc. These long standing boundaries are a important aspect of local identity Both have different needs and putting them together would be detrimental to both areas. Grace way offers a natural boundary. It will also effect catchment areas for schools and doctors surgeries etc which would be wrong and impact on the residents of the Old Town. I sincerely hope my voice is heard and the Old Town boundary remains unchanged. Kind Regards [REDACTED]
