Comment text:

This page doesn't have much info on it and the map doesn't load properly, not do I have time to search for the info. I was told that you propose to change the old town to pin green and am utterly opposed to this. The old town is an historic place and people who live here are proud to do so. I just moved here and have absolutely object to being labelled as pin green! I would also have to suspect the motives for this as purely political and of no benefit to residents. Plus record my objection. I did not agree to being contacted or my details used for anything but the form won't allow me to submit unless I tick the box!
