### Comment text:

The boundaries can be split but those of us who live in cheltenham, work here, use the schools and roads and hospitals etc etc have a right to be governed by those in cheltenham and not those in tewkesbury so please do not hide the agenda here by completing it in stages! I reject the idea unless assurances are provided that it will not lead to these additional wards coming under tewkesbury in the future. Failing that come clean and tell people what you are really trying to do by splitting the wards!
