Comment text:

I am quite happy with the boundaries as they are, with regard to St George's it represents a community, if it were to be extended, then the boundary could be moved to the East to incorporate a part of St Peter's Ward. The A13 represents a physical barrier between St George's and Appleton Ward and extending St George's across the A13 simply would not work. I have been a resident of St George's since 1984.
