Comment text:

Church Langley should be kept as one ward. I object to the propossl to split it in two. Having 2 sets of three councillors looking after the area with opposing views will be extremely damaging to the whole area.it will make it very difficult to get things done if these 6 people have opposing political or personal views. Nicky Purse and Simon Carter have done a great job in recent years identifying and prioritising work. Then securing again the Church Langley funds from the original developers held with the local council. They are a great asset to our community and I would not want to loose them or the current arrangement of 3 councillors fir the whole if Church Langley.
