Comment text:

Clearly all the areas with new developments, particularly New Hall and Gilden way areas will need more councillors going forward. However I do not find it helpful to have multiple councillors in one area, it's confusing who to speak to. Ideally we should have one councillor per area and have smaller areas maybe around 2000-2500 people represented. For example I live in Mark Hall, but the needs of Mark Hall north are different to Mark Hall South etc. and I am sure that will be true for other areas.
