Organisation Name:

Comment text:

How about saving the residents of Stevenage a fortune and remove all the current parasites that are topping up pensions or paying golf clubs memberships or financing their awful BMWs and actually reduce the number of poncing councillors to zero we all know the officers do the work the council is a political mess and more of them means more costs and currently SBC is negative value for money for the entire town failing its people in terms of housing failing its people in terms of waste collection illegal parking car parking in general remove the chief parasite and ensure their offspring do not get a nice safe seat alongside a nice house and job at the council by refuting this boundary change and actually removing them all
