Comment text:

How about adding areas that gets overlooked and needs discussion, say the poorer deprived areas of Blackpool, that no one seems to take notice of and are pretty much run down, boarded up shops, unfinished/unbuilt houses in Central Drive/Tyldesley Road / South Shore surrounding areas? Can all councillors in these boundary areas care to comment and enlighten us, the residents, general public, about these plans that seem ignored and also forgotten about, instead of focusing on the glamourised touristy areas that they seem caring and concerned about the most?
