Comment text:

I strongly object to the proposal the Commission has made for the boundary of the proposed Gerrards Cross and Denham ward. The Commission has established very clearly that parish boundaries are an effective measure of community cohesion. Yet for this ward the principle has been cast aside and both the Gerrards Cross and Denham parish boundaries disregarded. At present the Commission is choosing to tear apart the centre of Gerrards Cross in order to indulge the whims of a neighbouring town. It is deeply disappointing to see that the understanding of the Commission of local communities is so paper thin as to have allowed this to progress as far as it has.
