Comment text:

Whilst I would have preferred to see single member wards , I fully recognise the need to meet the criteria of the review. I consider that the new proposals for Baldwin Ward are a practical solution which well reflect the community links and shared interests of all the villages suggested for the Ward. The latest recommendation reflects close relationships that have existed for many years both in terms of local facilities, common interests and geography. In the previous consultation it was supported by all the Parish Councils in the current Woodbury Ward which now joins with Baldwin.
