Postcode: [REDACTED]

Organisation Name: Burham Parish Council and Tonbridge and Malling Borough Council

Comment text:

Dear Boundary Commission Member, I will have lived within the proposed ward of Burham Eccles and Wouldham for 52 Years at the next election. For 37 of those years, I have been a councillor on Burham Parish Council, and I will have been Chairman of that Council for 17 years at the next election in 2023. As a parish council, we have had excellent support from our borough councillors. I am concerned as a parish councillor at the dilution of that input, especially when our new ward is faced with a mass of proposed development. I and my fellow parish councillors have worked with Trenport on the Bell Lane development in Burham. By our input, supported by our borough councillors, we have been able to transform a mediocre proposal into one of great benefit to our village and a much better development for Trenport. Trenport will be the major developer of nearly a 1000 houses in our new ward, and we very much hope, our own population and a wider Kent population, can benefit from improvements to the proposed developments, by all our councillors, during the long planning stage to the benefit of all. This again will require a joined-up team of parish, borough and county councillors with the time to do a decent job. I therefore ask as Chairman of the Burham Parish Council for the best future of our new Burham Eccles and Wouldham Ward that it be a three-member ward and not a two-member ward. I am also a TMBC Borough Council and have co-written my attached submission with my ward colleague Councillor Dave Davis which is attached. Yours Sincerely Roger Dalton Chairman of Burham Parish Council TMBC Ward Member for Burham and Wouldham.

Our Ref: 20210715 BW_TMBC_BC_Review

16 July 2021

To Local Government Boundary
Commission for England
1st Floor, Windsor House
50 Victoria Street
London
SW1H 0TL

Dear Boundary Commission Members

**BURHAM AND WOULDHAM WARD MEMBERS SUBMISSION TO THE REVIEW OF
TONBRIDGE AND MALLING BOROUGH COUNCILS WARD BOUNDARY REVIEW
CONCERNING THE NEW BURHAM ECCLES AND WOULDHAM WARD**

BACKGROUND

1. We are the two councillors for the existing ward of Burham and Wouldham. Cllr Dalton was first elected in 2003 and Cllr Davis in 2004 and have been ward councillors ever since. We know our ward well.
2. Generally, we support the TMBC and Conservative Group submissions on the change of councillor numbers and the ensuing warding arrangements but have reservations about the new ward of Burham Eccles and Wouldham (BEW). We fully support this proposed geographical ward which is the best fit for the three old communities and the new village of Peters Village. We will not dwell on the excellent logic of the fit of the villages but would not wish to see disruption of that plan to solve the problem we raise below.
3. The Commission will be aware that Tonbridge and Malling Borough Council's (TMBC's) new Local Plan has, recently, been rejected by the Planning Inspectorate. As such the

mass development underway or proposed in our new ward will not be recognised or understood by the Boundary Commission process. However, it will happen under NPPF rules because TMBC cannot demonstrate a 5-year supply of building land. TMBC intend to resubmit a revised Local Plan with a programme for adoption by 2023/24. With one exception, all the developments we set out below were in the rejected Local Plan and would have been in the resubmitted plan. However, as we set out below, the developer is at an advanced stage of submission of those applications or indeed is delivering them. We therefore set out below our concerns that by 2027 your review will mean our new BEW ward will be well outside the permitted variances you propose.

BEW DEVELOPMENTS AND RESULTING PROJECTION OF ELECTORATE NUMBERS

4. For all known large projects in the new BEW ward, we have just one developer, Trenport. They are involved in the ward, with work ranging from initial soundings on future projects, through planning applications in all states of progress, and up to actual delivery of mass housing. Trenport have shared their project programme with us, and we base much of our evidence on that. This programme has been confirmed by the TMBC planning department as a reasonable expectation of the delivery of dwellings within the timescales given by Trenport.
5. The following developments of consequence (over 30 dwellings) are programmed between now and 2027:
 - a. **Peters Village (890 dwellings).** Peters Village planning is almost complete and house construction delivery is at about 62%. This project was approved by TMBC's Area 3 Planning Committee in March 2006 and both of us were heavily involved in the work to get that application to committee and in the myriad of subsequent detailed applications and amendments. However, the financial crash of 2008 happened and with it a consequential delay until 2013 with Trenport doing the minimum to keep the project alive but no more. Since then, Peters Village has blossomed turning a disused worked out chalk quarry into a stunning modern village. It was because of this new village that our last Boundary Review recommended that Eccles was taken out of our ward to reduce the impending elector councillor ratio. There is a minor discrepancy in the number of houses Trenport have in the programme they gave us (855 dwellings) and the number TMBC have given planning permission for (890). We have not had time to resolve this, but it does not affect our argument and we have set out both scenarios in our calculations below.
 - b. Small developments in the pipeline over 30 dwellings:
 - i. **Bell Lane Burham (58 dwellings).** The Bell Lane application has been submitted and is awaiting verification. This was in the Local Plan that has just been rejected and would have been the new Local Plan, but approval will be given before the end of this year. There is no planning reason to stop this application being approved.

- ii. **Southern Extension to Peters Village (47 Dwellings)** The application for the Southern Extension has been submitted and is awaiting verification. This site was in the “Call for Sites” in the development of the rejected Local Plan. It was not selected for that plan as there were environmental issues such as flooding. These have been overcome by a planned import of mass chalk. Hence, Trenport are taking advantage of TMBC’s lack of a 5-year supply of building land and will get planning permission for this by the end of this year.
- iii. **Wouldham Allotments (72 dwellings).** The Wouldham Allotment site is being worked up for a planning application in late autumn. This was in the Call for Sites for the rejected Local Plan but and was deemed acceptable but not put in the Plan. There are no reasons why it should be refused when TMBC cannot display a 5-year supply of building land.
- c. **Bushy Wood Phase 1.** Bushey Wood is a 900-house development with a planning application submission planned for October / November 2021. This is an old brickworks and as such a classic brownfield site which has been in TMBC’s previous two plans as a safeguarded site for housing development. In TMBC’s rejected plan this was intended as a site for development. However, Trenport will pre-empt that with an application going in in the absence of a 5-year supply of building land. Beyond 2031, Phase 2 is planned which will expand the development by a further 600 houses. This will be in our resubmitted Local Plan and Trenport firmly register this.

6. Our calculations are at Annex A.

- a. In Calculation 1, with data from the TMBC’s Electoral Role as at 1st July 2021 we establish that the present electorate of the proposed BEW ward is 4294.
- b. In Calculations 2 & 3, we examine the number of voters in the newly constructed housing in Peters Village to determine that, from a total of 552 new houses, as at 1st July 2021, there are 887 registered electors in 509 houses. From that we deduce that there is an average of 1.607 electors per dwelling which we understand accords with the Boundary Commission’s own figure.
- c. In Calculation 4, we compare the number of Local Electors in July 2021 with those of July 2020 in every one of the existing 24 wards of TMBC ward. We note that we have had a significantly larger increase in electors in that year than any other ward. Our increase is 292 electors (10.97%) compared with the next highest ward of Snodland West and Holborough Lakes with 130 electors (2.65%). A further 20 wards are lower than 1%. This increase, of only 292, is low and should not be used to extrapolate forward. That is because there have been construction delays as a result of covid. There has also been an unexpected need to stabilise a chalk quarry face requiring the storage of 38,000 tonnes of chalk on two sites that should have been developed this summer. The chalk will be moved next summer to the Southern Extension site where it is required to raise ground levels to avoid flooding concerns referred to above. From

Calculation 4, we hope the Boundary Commission can see that most wards only show natural growth patterns, but BEW is looking at a totally different order of growth in the period to 2027.

- d. Trenport's programme is at Table 1 in Annex A
- e. In Calculations 5a, 5b, 5c, 5d, and 6, we develop Trenport's construction programme to show figures for electors up to 2027 and then beyond to 2030. We have taken 1.6 electors per new dwelling We have established a realistic model of the increases in voters during the period 2021 to 2030.
- f. In Calculation 7, we note that Trenport have understated the housing numbers by 45 dwellings and include those. There is not a great difference in the two sets of results but feel that TMBC's are more accurate. Therefore Calculation 7 results are in the Table below.

Serial	Years ->	2021	2022/23	2024/25	2026/27	2027/30
{a}	{b}	{c}	{d}	{e}	{f}	{g}
1	Revised Number of electors	4294	4781	5481	6021	6744
2	Revised Electors per Cllr two-member ward	2147	2390	2741	3011	3372
3	Revised Two Member Ward Variance	86.4%	96.2%	110.3%	121.2%	135.7%
4	Revised Electors per Cllr three-member ward	1431	1594	1827	2007	2248
5	Revised Three Member Ward Variance	57.6%	64.1%	73.5%	80.8%	90.5%

- 7. Our calculations show that as a two-member ward, by the 2025, two years after the 2023 election, we will exceed the 10% variance on TMBC's figures and by the election of 2027 we will exceed them by 20%. As a three-member ward, we accept that by the 2027 election we would be 20% low on the variance. However, there are extenuating circumstance in our ward for this that we set out below.

NEW WARD WORKLOAD

- 8. As councillors, at the next election, Roger Dalton will have served for 20 years and Dave Davis for 18 ½ years. We know our ward and the village of Eccles well and critically we have followed the development of Peters Village from before the first planning application to the present state of 62% completion. It has been beset with a mass of

issues over that time which we have, in large measure, resolved but even now there is still more work coming from this new development than our other two villages put together.

9. Given that Bushey Wood is the same size or larger than Peters Village, we expect to have a very large workload that will be bigger than any other ward in the Borough. We accept that we should be a 2.5-member ward but given that workload, and projected figures of well into the +/- 10% variance a little after 2027, we ask that you err on the proposed Burham, Eccles an Wouldham ward being a 3-member ward and raising the overall number of TMBC councillors from 43 to 44 to accommodate that. If you do that, then we can look forward beyond 2027, to being a 3-member ward within the 10% variance required.

Yours sincerely

Councillor Roger Dalton

Councillor Dave Davis CEng FICE

CALCULATION SHEET

ANNEX A TO
20210715 BW_TMBC_BC_Review
DATED 16 JUL 21.

CALCULATION 1 Voters on Electoral Rolls as at 1 July 21

Burham CCA =	1060	Less 4 CCA voters in Peters Village
Wouldham Village CCB =	1012	CCB Less PV
Peters Village (PV) =	887	4 from CCA & 883 from CCB
Total Voters Present B&W Ward =	2959	
Present Eccles Ward =	1335	CAC
Total electorate at present for Burham Wouldham and Eccles Polling stations	4294	

All data from Appendix 1 TMBC Elector Statistics 1 July 2021 Local Electors Column 5

Calculation 2 Peters Village Voters per Household as at 1 July 2021

Number of Voters per Dwelling	Dwellings	Total number of voters
1	167	167
2	313	626
3	23	69
4	5	20
5	1	5
Total	509	887

All data is from the B&W Ward Register CCB as at 1 July 2021

Calculation 3 Average Number of Voters per Dwelling in Peters Village

Dwelling with at least one registered voter =	509	
Note number of occupied dwellings =	552	
Hence voters per dwelling =	887/522 =	1.607

From Calculation 2

From Table 1 Below
