Comment text:

Kings Hill increases in size and numbers of residents daily with the current number of residents standing at c.10k. In my opinion it would seem appropriate for King Hill to remain as a single ward on it's own, and I would urge you to please consider retaining three borough councillors to serve this area of the borough. This is a vibrant community with continued issues arising from it's growth, and it is essential that borough members can serve appropriately. The role can only become more busy with time and your serious consideration of my comments would be much appreciated, thank you.
