### Comment text:

Without changing the size of the proposed Castle ward, it might be more consistent in feel of City Centre to run the boundary with JoG down the middle of Dale Street (so putting the East side of Dale St. In JoG) and include both sides of South Road and also Railway Street/Boundary Road in Castle. It has been that way before and South Road, Meadowside and Railway Street share a car permit zone. The pointer roundabout was historically the start of the city centre and both sides of South Road share in that experience to a greater extent than the East side of Dale which backs on to JoG.
