Comment text:

I have been contacted by a local resident who wished to comment on the proposals but was reluctant to do it themselves due to the contact box requirement. I have copied and pasted their comments and the explanatory start of their email below. The post code is included but not the name. If this invalidates the comments please let me know if there is an alternative method for their views to be included. Many thanks, Cllr. David Hopkins, Dawley Hamlets Parish Council. David, Please could you add my comments to the Ward Boundary Proposals. Unfortunately, I do not like that I have to tick a box to allow to be contacted as the only way to submit online through the link you have on Facebook. So if you are able to add my comments without me having to agree to the conditions I would be very grateful. I would like to strongly disagree with the proposal to move us into the Dawley and Aqueduct Ward. As our address is Horsehay, we would like to stay within Horsehay. Just because additional houses have been built in the Lightmoor area doesn't mean most of Horsehay should be moved out of its ward named after the area. How can you justify moving what seems like 90% of Horsehay out of a ward named "Horsehay" We are not Dawley. Why would this even be considered? Maybe Lightmoor and Doseley need to be considered for their own ward now they have the influx of new housing and building still continues or became a part of Aqueduct as they are much closer than we are to Aqueduct! Many thanks,
