### Comment text:

I have been a Wellington town Councillor for Park ward for the past 3 years and I feel that a 2 councillor combined ward for Park and Haygate would work very well as they have a lot of similarities. Children from both wards attend the two primary schools on North Road ,Wrekin road and St Patricks as they are the only schools in the area.The schools provide a lot of afterschool clubs and activities which are attended by children of both wards.Children from both also use the Crescent road recreation ground for Football games at the weekend.The Community Cafe and Community larder within Wrekin road school is accessible to both wards as they are close by and is a lifeline for Children during the school Holidays. The Belmont Hall within Haygate ward is used for adult/elderly/community groups from both wards as this is the only community hall available to hire and use. Both wards historically share through roads and pavements.Both wards are very similar in that they both have areas of deprivation that need improving.
