Dear Sir/Madam

I am writing about the proposal of change to the boundary of Holdfast and Queenhill. I have lived at Holdfast all my life which is a very long time

and have never heard of anything so absurd as to this suggestion, has nobody looked at a map to see that the River Severn runs between us and Ripple

Who is going to travel all the way through Upton- upon- Severn to attend meetings etc?,

Why make changes when all is running smoothly, Longdon is quite happy with association with us, so why upset and make things unworkable.

Hopefully another good look at this proposai will find it thrown out the window to let us all have peace of mind
