**Subject:** Boundary Changes - Longdon, Queenhill and Holdfast

**Categories:** [REDACTED]

We are writing to express our concerns about the proposed boundary changes for Longdon, Queenhill and Holdfast.

The decision to align Queenhill and Holdfast to Ripple appears to have been made without taking into account the fact that Ripple is on the other side of the River Severn. Involvement with Ripple on local issues, including voting at elections general and local elections, would necessitate a round trip of around 12 miles in an area which is prone to flooding. Longdon, on the other hand, is less than half a mile away!

Longdon, Queenhill and Holdfast have had a long-standing and productive relationship for nearly 50 years and we would like to add our voices to the many others who are strongly opposed to this proposal.
