Comment text:

147 is far too many. At least it was reduced when we had an election in May 2021. Prior to that, all of the district and old county councillors were automatically given a seat on the "shadow unitary" council. This is all just money for old rope that should be being spent on services for residents. The wards are arguably OK but there should not be 3 councillors per ward - one is quite enough. So I am basically saying there should be one third of 147 - 49.
