### Organisation Name:

### Comment text:

We, the Taxpayers, get a Unitary Council forced upon us by a Tory minister, against our wishes in at least three of the four old District Councils, on the false premises of efficiency and overall cost savings. The severe dilution of our WDC councillors' vote on Wycombe matters is a loss of our local democratic power, so this Bucks Unitary Council (BUC), is an illegitimate body in my view. You never let us vote on this BUC in the first place, now you expect us to be experts in advising you on administrative details to make it work. This is such a typical govt. action of cart before a horse; arrange a new council then think about its democratic structure afterwards! It's born of Aylesbury bosses ego, whitewash, then flannel. Real, effective local democratic power over local affairs has been stripped from us taxpayers. This exercise is utterly fatuous. Give us back our District Council.
