Subject: Number of Buckinghamshire Council cllrs
Categories: Matt, Submissions

Hi

I would like to see the number of councillors reduce to 80.

This is because a) the cabinet makes the decisions and the cllrs just do as they are told.
b) I can see no difference between me influencing three cllrs or one.

It would also be a good idea to have some form of PR rather than First past the post. There is already a division between representation for the towns compared to the villages & rural communities.

Thanks
