### Comment text:

The following ward patterns around Hallow, Broadheath and Alfrick et al could be changed and work better than the current proposals - keeping villages that belong together together. Alfrick & Leigh Ward is a 1-councillor ward comprising Alfrick & Lulsley, Leigh without Bransford, plus Suckley. 11.03% variance above the desired level. Broadheath & Bransford is a 2-councillor ward, comprising today's Broadheath ward plus Bransford. 9.7% above the level for 2 councillors Hallow & Wichenford is a 1 councillor ward, comprising today's Hallow ward, plus Wichenford & Kenswick. 0% variance from the requisite level. Obvious issues are splitting Bransford from Leigh and the 2-councillor nature of Broadheath & Bransford but it still works better than the current proposal.
