Comment text:

Having looked at the proposals I am very happy for Hallow to be joined with Holt, however I am not at all pleased with the possibility that Hallow could be joined with Lower Broadheath. My reasons being that the joining of Hallow and Lower Broadheath would make a very large ward, this would not allow for the individual and varying needs of either of these wards. At present Hallow is very well served by its councillor Dean Clark who lives in the village, he is very involved in village life, is available and approachable and does his utmost to keep the village thriving and up to date with any new developments. Lower Broadheath itself is a large and growing village that should retain its own designated councillor particularly as there is a huge housing development being built between Worcester and Lower Broadheath. I feel strongly that Hallow should retain its own identity and not get swallowed up into Lower Broadheath and Worcester city.
